New Legislation Packages

Option 1: Basic 4 Bedroom lowset Home with access, up to 6 x 240v photoelectric interlinked alarms "BROOKS" \$500 + GST .

This is a one off fee that would bring your property to the new Legislation coming in January 2017.

Prices may change if RF bases are needed with Lithium alarms etc. also if Brooks alarms are existing and in date the price could be cheaper.

Option 2: 1st Alarm \$120 +GST
Subsequent \$95 + GST Whilst on install of 1st Alarm

This price is based on Hardwiring each alarm through accessible roof spaces and wall cavities from existing Supply "usually a light switch". Where this is not possible additional Materials & Labour costs may occur due to the use of RF connectors units (radio frequency), Lithium alarms and or Aussie duct.

Option 3: 1-5 year install plan: 240v \$156 + GST

Inclusions: Annual Service
Safety Switch Test
Lease Re-newels unlimited
1x Mains powered Photoelectric Brooks Alarm supplied
Installed and interlinked.

Depending on how many Alarms also what type of existing alarms E.T.C this service would continue until property is Compliant.

If property needs more than 5 Alarms the last payment would be like a balloon payment and be charged at Subsequent cost in Option 2.

Once property is Compliant we would reduce to a regular Service \$59 Inc. GST up to 3 alarms and \$69 Inc. GST if 3 is exceeded.

Option 4: Lithium Package (2 Storey based on 3 Bedrooms upstairs with access) \$599 + GST

Inclusions: Annual Service
 Safety Switch Test
 Lease Re-newels unlimited
 4x Mains powered Photoelectric Brooks Alarms Supplied installed and interlinked including 1x RF Base (Radio Frequency)
 1x 10Yr Lithium Alarm inclusive of RF Connector.

For additional Lithium alarms with bases we will only charge all at a cost price with no extras whilst on site all installed.

Annual Service Package Plans

Annual Service Package A \$59 up to 3 Alarms or \$69 for 3+ Alarms

Inclusions:

All Smoke alarms Tested

Cleaned with canned air & maintenance of all smoke alarms

Check positioning of Alarms to avoid dead air space which we find is a common problem when alarms have not been professionally installed.

All batteries are replaced
